

# ANGELS *Region* STATUS

We are proud to announce that  
  
has been recognized as an Angels Region,  
and that our school  
  
played a role in achieving this honor.

An Angels Region is a safe community for stroke. It is a region where public awareness, EMS partnerships and acute hospital care are all optimized to deliver the best possible outcomes for stroke patients.

To become an Angels Region, hospitals, emergency services and public educators must work together to provide safe hands for stroke patients throughout their communities.

**Implementation of awareness campaign**  
FAST! HEROES  
GOAL #1

**Achieve gold status in the EMS Angels Awards**  
EMS Angels  
GOAL #2

**Have enough stroke-ready hospitals**  
ESO EUROPEAN STROKE ORGANIZATION  
World Stroke Organization  
GOAL #3

**Get all hospitals to gold in the ESO/WSO Angels Awards**  
ESO EUROPEAN STROKE ORGANIZATION  
World Stroke Organization  
GOAL #4

**100 Angels REGIONS**  
by DECEMBER 2027

**100 Angels Regions** is a strategy of the Angels Initiative, a unique healthcare initiative whose mission is to improve outcomes for stroke patients by increasing access to evidence-based care and optimizing treatment quality.

Angels consultants in countries around the world encourage and support hospitals and EMS to implement practices that substantially increase stroke patients' chances of survival and living a disability-free life.

**The Angels Initiative has set itself the goal of converting 100 Angels Regions by December 2027.**

We are proud to have contributed to this goal by educating children and their grandparents about stroke through implementation of the FAST Heroes campaign.
