

STROKE KIT INVENTORY

A well-stocked Stroke Box is critical to ensuring a seamless patient experience for each stroke patient. Within this kit we have included all the forms you require, including the Induction Documents, Process Forms, Quality Forms, Reference Documents, Wrist Bands and Labels. We have made a recommendation for the medical supplies you will require, however please use equivalent products relevant to the supplies available in your institution. Please ensure the Stroke Box is restocked after each patient treatment.

O ₂	1	Nasal Cannula	O ₂ -Saturation
BP	2	NaCl 0.9% 500 ml bag/bottle	Hypotension
		Labetalol 2 x 10mg amp bottle	Hypertension
