

GOLD STATUS

Congratulations

YOU HAVE REACHED **GOLD STATUS**
IN THE **EMS ANGELS AWARDS**

Every 30 minutes a stroke patient who could have been saved, dies or is permanently disabled, because they were treated in the wrong hospital.

Together we can change this!

As first medical contact, the actions of pre-hospital care providers (EMS) play a crucial role for outcomes of stroke patients.

Through your efforts of improving the accuracy of stroke diagnosis, only delivering stroke patients to stroke ready hospitals, acting emergently, and striving to always pre-notify the hospital that a stroke patient is on the way, you are giving stroke patients a better chance to survive their stroke with their lives intact.

Behind each of the numbers that helped you achieve this status is a patient, so on behalf of them we would like to say congratulations and thank you!

GIVING *life*
A CHANCE.

EMS ANGELS AWARDS

*Committed to quality
improvement in stroke care*
