

New Consultant Onboarding Training Day Simulation videos

The following two simulation videos can be used in the Face-to-face training during the new Consultants onboarding for the two simulation sessions. The two videos were recorded in Zagreb, Croatia. We also have created the “Country overview Croatia” PowerPoint (that you find in the Guidance and Content Material for Team Leaders). Use this PowerPoint as an introduction before showing the first simulation video.

Note that you can also use your own country specific simulations videos for the session.

Please find here the links to the videos:
